Plastics that can be collected as recyclables

Only products totally made of plastic materials will be collected as recyclables

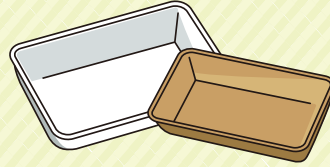

〈Plastic containers and packages〉

Plastic Packages, and Cups

Containers of noodle, boxed lunch, and etc.
Packages of eggs, tofu, natto, and etc.
Cups of pudding, gelatin dessert, and etc.

Plastic Trays

Trays of meat, vegetable, fish, and etc.

Plastic Bags

Shopping bag, Individual wrapping plastics,
and Plastic refill bags

Bottle containers

Bottles of shampoo, hair conditioner,
detergent, and etc.

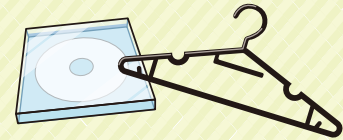

〈Products made of plastics〉

Cups, Spoons, Stationaries, Toothbrushes, and etc.

Toothbrushes can also be collected
at collection bases.

CDs, DVDs(including their cases), hangers, buckets, and etc.

Plastic containers and packages have ♻️ mark. Please use ♻️ mark as a guide when separating trash.

How to dispose of plastics as recyclable materials

- Please put them in a transparent, or half-transparent bags and tie the mouth of the bags when disposing.

※ Please do not double the bag.
※ Items without ♻️ mark are also classified as recyclable products, as long as they are completely made of plastics.

- When plastic has some stain, please wipe them out, or rinse them out with water. Plastics with some color of the food can be collected as recyclables.

Collection Days

Please put recyclable plastics by **8:00 a.m.** on the **collection day** of recyclable garbage.

Plastics that cannot be considered as recyclable garbage.

- Plastics with unremovable stains. → **Burnable garbage**
- Plastics with metals and cutting tools → **Non-Burnable garbage**
- Items whose largest side lengths exceed 30cm. → **Large garbage**
- PET bottles → Please put them into the collection net or the collection container of the plastic bottles on **the collection days of recyclables.**
